

## Options for Regents / SUNY College Physics 2009 - 20010

No matter which course you choose ALL Physics students must take the June 2010 New York State Physical Setting: Physics Regents Exam.

---

### OPTION I - NY State Physical Setting: Regents Physics

For students who are interested *ONLY* in NYS Regents Credit for Physical Setting: Physics they take the same course with the same homework, quizzes, and exams. This may be necessary if a student needs a Regents Credit for a sequence in science toward a NYS Regents or Advanced Regents Diploma.

---

### OPTION II - Regents Physics for College Credit - SUNY General Physics (Algebra Based) through NCCC.

By taking this Option you can earn SUNY Credit at ( college credit at any State University of New York ) by enrolling through NCCC.

NCCC ( SUNY ) credit is offered at the **tuition rate of \$55 per credit hour for LHS** students. This is a bargain compared to the NCCC student rate of \$181 per credit hour. Credit for this course is appropriate for non-science and tech majors at SUNY colleges. Majors include:

Electrical Tech, Mechanical Tech, Computer Sci , Business, Nursing, Forensics, Education (other than science), Criminal Justice, English, History, etc ...

### Course Description from NCCC Catalog

**PHY 131 General Physics I** - 4 SUNY Credits = \$220

Vectors, Forces, Linear & Circular Motion, Energy, Momentum, Heat.

**PHY 132 General Physics II** - 4 SUNY Credits = \$220

Waves, Light, Optics, Electricity, Magnetism, Atomic theory.
